This program is road-tested and includes legally sound strategies for intercepting criminal traffickers of human beings, victims of sex trades, and narcotics.

Drug running is rampant. With over 110,000 drug overdose deaths narcotics such as fentanyl, often designed to look like candy products, are fast becoming the greatest dangers to the safety of Americans.

This is a national crisis!

U.S. highways are ripe with criminals and associates to cartels who are transporting people against their will bound for the sex slave trade.

Do you and your officers know how to spot them and dig deep enough to surface what they're hiding? THIS PROGRAM WILL TEACH YOU.

Designed by Calibre Press instructor Chief Edward Delmore, this practical course provides students with highly practical, instruction in criminal interdiction techniques that can be applied to identify and apprehend criminal suspects and surface hidden contraband including drugs, illegal guns, human trafficking victims, and stolen property.

This course provides in-depth discussion and will teach you:

- Suspicious driving behaviors you can spot from the road that may indicate criminal activity.
- Interview techniques that help detect deception and derail lying suspects.
- Vehicle documentation abnormalities that can indicate attempted deception.
- Body language “red flags” that indicate stress, extreme nervousness and attempts to hide guilt.
- Strategic listening skills that use a suspect’s words and speech patterns to identify lies.
- Vehicle alterations, hidden compartments, and contraband concealment methods.
- Current case law on search & seizure and other interdiction-related legalities.
- Officer safety tactics specific to vehicle stops and searches.
- Proven strategies to strengthen your case in court with iron clad reports and thorough evidence documentation.
